Mildura

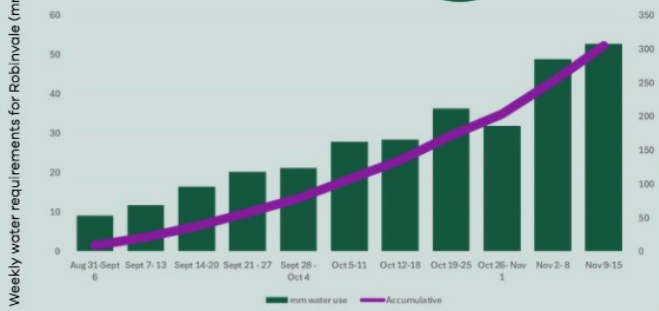

Estimated water requirements for almonds last week (9-15 November) and this coming week (16-22 November)

Robinvale

Last week
(9-15 Nov)
52.7 mm
Next week
(16-22 Nov) 53.2 mm

305.1 mm
(3.05 ML/ha)

Cumulative total from September 2026 for Robinvale (mm)

Swan Hill

Current evapotranspiration figures have been combined with an average Crop Coefficient (Kc) value of 1.1 (Nov) to estimate weekly water requirements. These figures should be adjusted based on variety, crop load, canopy management and rainfall received.
